1. Introduction

This document compiles the events carried out and media article published to promote FINODEX first and second call around different European countries. In this sense, it has been remarkable that an important effort on promoting the calls has been done by FINODEX, which has organised or has been present in around **one hundred events in more than 25 countries** for spreading both open calls. Online press has also been really active, including around 120 impacts in online media.

These figures are the result of the hard work accomplished by the consortium. In the same way, it should be taken into account that the labour of dissemination and promotion has been a key factor to achieve success in the first and second FINODEX calls:

- A total of **493 proposals** have been received among the two open calls, **197 in the first call and 296 in the second one**. It represents **35% more proposals** received during the second call more than the first.
- Proposals from all over Europe have been submitted to FINODEX: **from 32 different countries**.

Press clipping has been also maintained at the project website on here
